

How to ensure bioenergy production in a sustainable and efficient manner in Norway? – From strategies to actions

22 September 2015

Park Inn Oslo Airport Hotel, Gardermoen

09:30	Welcome and safety: Judit Sandquist, SINTEF ER
09:40	Sustainability and efficiency in bioenergy production - Carine Lausset, NTNU
10:00	Sustainability and efficiency in biomass logistics
10:00	Efficient forest fuel supply system – Mia Iwarson-Wide, Skogforsk, Sweden
10:30	Storage – Erik Anerud, Swedish University of Agricultural Sciences
11:00	Biomass upgrading – Rune Brusletto, Arbaflame
11:30	<i>Lunch</i>
12:30	Sustainability and efficiency in conversion technologies and end-use
12:30	District heating in Statkraft – Torbjørn Mehli, Statkraft
13:00	Biogas production – Rune Bakke, Høyskolen i Telemark
13:30	District heating system in Oslo county – Cato Kjølstad, Hafslund
14:00	Sustainability and efficiency from a governmental angle
14:00	The role of bioenergy in a low-carbon society – Kristin Madsen Klokkeide, Norwegian Environment Agency
14:30	<i>Tea/coffee break</i>
15:00	Workshop
15:00	Plenum discussions chaired by Judit Sandquist
16:00	Conclusions from today's workshop
16:15	Closure
