

Project no.:

608540

Project acronym:

GARPUR

Project full title:

**Generally Accepted Reliability Principle with
Uncertainty modelling and through probabilistic Risk assessment**

Collaborative project

FP7-ENERGY-2013-1

Start date of project: 2013-09-01

Duration: 4 years

**Public introduction to
D10.5b
Exploitation plan of the project results (version b)**

Due delivery date: 2015-08-31

Actual delivery date: 2015-10-20

Organisation name of lead beneficiary for this deliverable:

TECHNOFI

Project co-funded by the European Commission within the Seventh Framework Programme (2007-2013)

PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	x
CO	Confidential, only for members of the consortium (including the Commission Services)	

Abstract (public)

Exploitation activities within the GARPUR project aim at preparing the effective exploitation of the project results. Exploitation activities started from the first year of the project lifetime.

Exploitation activities are based on:

- Exploitation workshops (internal), organised once a year (4 workshops during the project lifetime),
- An exploitation plan, with several successive versions improving each year, and fed by the outputs of the corresponding exploitation workshop.

The present document, restricted to GARPUR partners and the European Commission, is the second version of the GARPUR exploitation plan. It is fed with the outputs of the first and second exploitation workshops, held in Nice in June 2014 and June 2015.

For preparing the first exploitation workshop, a questionnaire was sent to all GARPUR partners. It invited them to

- describe the background they are bringing to the GARPUR project and indicate how it will be used;
- describe the foreground they expect to generate during the GARPUR project and how they intend to value and exploit it.

For preparing the second exploitation workshop, a questionnaire was sent to all GARPUR partners, focusing on the exploitation risks of the project.

From the conclusions of the first and second exploitation workshops, it appears that the third exploitation workshop (that will be held in June 2016) will be key to decide about the exploitation prospects of GARPUR.
