

Innovation Award 2017

Nominations for the NOWITECH Innovation Award 2017 are invited. The winner will be announced during the NOWITECH Final Event 22-23 August in Trondheim.

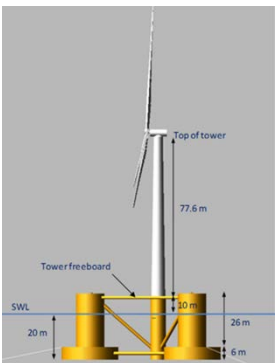

Purpose

The NOWITECH Innovation Award is intended to stimulate and reward knowledge-based innovation and / or entrepreneurship within the field of offshore wind energy. The award will help to identify ideas with commercial potential.

About the award

The winner will be announced during the NOWITECH Final Event 22-23 August in Trondheim. The award consists of a diploma and a cash prize of NOK 10 000. The winner(s) will be selected by an award committee. The rationale for the selection will be delivered during the ceremony and included on the diploma.

Who can be nominated

Candidates who are affiliated with any of the industry or research partners in NOWITECH can be nominated. **Self-nomination is encouraged.** The committee will consider the proposals received within the deadline and submitted according to the instructions.

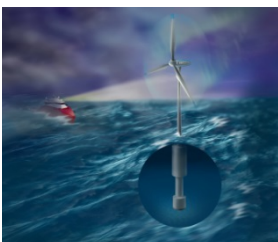

The criteria for the assessment of candidates:

- Potential to reduce cost of energy from offshore wind farms
- Degree of novelty
- Commercial viability

Award Committee

The NOWITECH Innovation Award Committee will consist of representatives from industry and academia.

Deadline for submissions

Please submit the nomination for the NOWITECH Innovation Award 2017 according to instructions at NOWITECH no later than 1 August.
