

# NACSiC 2015

## New applications of cubic SiC

Oslo, Norway 28th – 29th May, 2015

**NACSiC 2015** is the first workshop that gathers stakeholders in the emerging field of cubic SiC as an active material for energy applications. The workshop is intended to demonstrate promising energy systems utilizing c-SiC in invited and contributed talks. The workshop will provide leading scientists opportunities to discuss materials research and technology, establish new contacts and discuss new European initiatives. The workshop will consist of introductory presentations combined with strategic discussions on the future science and technology of cubic SiC. Submit an abstract if you want to contribute a talk; participation in the discussions is also welcome.

### Invited speakers:

- Peter Wellmann, University of Erlangen-Nuremberg, Germany
- Haiyan Ou, Technical University of Denmark
- Mikael Syväjärvi, Linköping University, Sweden
- Nayo Iwamoto, University of Oslo, Norway

**Venue:** Thon Hotel Opera in Oslo, Norway.

Call telephone no. +47 24 10 30 30 to book a room, and give the booking reference: 20941973. The venue is 2 min by foot from the airport express train terminal and offers excellent views of the neighbouring famous Opera house and the scenic Oslo fjord. The day-light in Oslo during late May lasts for 21 hours.
