

# Price list 2022

all prices in NOK

Category	Instruments	I		II	
		Hour	Day	Hour	Day
<b>A</b>	Material Characterization Lab	300	2 400	625	5 000
<b>B</b>	SIMX camera	300	2 400	1 250	10 000
<b>C</b>	HiCam-500, HV probe-400	200	1 600	625	5 000
<b>D</b>	HV probe-100	50	400	200	1 600
<b>E</b>	Instruments for electrical testing	20	160	50	400
<b>F</b>	Sources <ul style="list-style-type: none"> <li>• <math>\pm 40</math> kV bipolar pulse train source</li> <li>• <math>\pm 150</math> kV single pulse source</li> <li>• Current source</li> </ul>	50	400	625	5 000
<b>B - F</b> Fee for rent of laboratory area is not included					
		Day	Month	Day	Month
<b>G</b>	High voltage lab – incl. voltage sources <ul style="list-style-type: none"> <li>• 800 kV AC resonant test system</li> <li>• 1200 kV mA DC source</li> <li>• 2400 kV 120 kJ impulse source</li> </ul>	13 000	130 000	13 000	130 000

For each category of instruments there are two different rates dependent on the type of project funding and ownership of project results:

**I Academic users:** MSc-students and research projects (*bidragsprosjekt*) where SINTEF is a partner.

**II Industry users:** Commercial users/projects (*oppdragsprosjekt*) and research partners where SINTEF is not a partner.

Prices are subject to change.
