

Project no.:

608540

Project acronym:

GARPUR

Project full title:

**Generally Accepted Reliability Principle with
Uncertainty modelling and through probabilistic Risk assessment**

Collaborative project

FP7-ENERGY-2013-1

Start date of project: 2013-09-01

Duration: 4 years

**Public introduction to
D10.5a
Exploitation plan of the project results (version a)**

Due delivery date: 2014-08-31

Actual delivery date: 2014-08-20

Organisation name of lead beneficiary for this deliverable:

TECHNOFI

Project co-funded by the European Commission within the Seventh Framework Programme (2007-2013)		
Dissemination Level		
PU	Public	
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	x
CO	Confidential , only for members of the consortium (including the Commission Services)	

Abstract

Exploitation activities within the GARPUR project aim to preparing the effective exploitation of the project results. Exploitation activities started from the first year of the project lifetime.

Exploitation activities are based on:

- Exploitation workshops (internal), organised once a year (4 workshops during the project lifetime),
- An exploitation plan, with several versions elaborated each year, fed by the outputs of the corresponding exploitation workshop.

The present document, restricted to GARPUR partners and the European Commission, is the first version of the GARPUR exploitation plan. It is fed with the outputs of the first exploitation workshop, held in Nice on 13 June 2014.

For preparing the first exploitation workshop, a questionnaire was sent to all GARPUR partners. It invited them to

- describe the background they are bringing to the GARPUR project and indicate how it will be used;
- describe the foreground they expect to generate during the GARPUR project and how they intend to value and exploit it.

From the conclusions of the first exploitation workshop in June 2014, and from the responses to the satisfaction questionnaires distributed after the workshop, topics for the next exploitation workshop (to be organized around June 2015) have been identified.
