# The geopolitical situation and security risk governance of the petroleum sector

Industry partner expectations

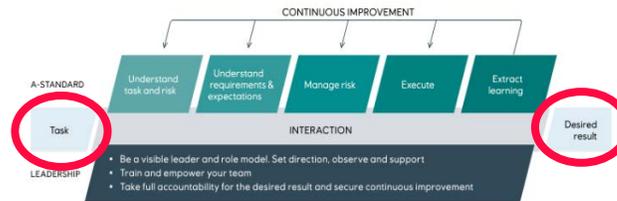

*HFC*

*Trondheim 18 October 2023*

*Sturle Næss*

TASK

1. Involve industry partners in the operationalization of tasks
2. Attention to the need for adjustments
3. Establish arenas for sharing findings and reflections along the way
  - dare to have a clear opinion without being sure
  - describe findings in a language adapted to the industry partners need

DELIVERED RESULT

1. Relevant
  - knowledge gaps are addressed
  - stakeholders involved
  - data received
2. Knowledge in line with
  - changes in external and internal frame conditions
  - new insight
3. Knowledge is used
  - while it is “fresh”
  - in line with the researchers' intentions
