Call for Papers

Open June 26 to September 25, 2020

You are invited to submit a proposal for presentation at the 21st Triennial Congress of the International Ergonomics Association: IEA2021 to be held in Vancouver Canada, June 13 to 18, 2021. This will be the most significant Human Factors and Ergonomics (HF/E) event of the Year. We invite participation from researchers and practitioners from around the world.

We are excited to announce innovative presentation opportunities at IEA2021. Presentation modes include “Lecture” (15-minute slots) and “interactive ePoster” (digital pdf and physical 4'X6' poster at the Congress) emphasizing the virtual elements we are adding to traditional physical posters to enhance opportunities to connect. Lecture and ePoster presentation options are equally valued at this Congress.

To ensure a wide variety of voices of HF/E specialists will be heard, each author may only be granted ONE lecture presentation. However, there is no limit to the number of communications that an author may present by interactive ePoster or co-author so long as other lectures are presented by a colleague.

INSTRUCTIONS

Step 1 - Write a proposal of no more than 900 words using the appropriate Practitioner or General proposal template. *Text should not reveal author identity to allow for blind review.* Templates are available at iea2021.org.

Step 2 – Submit this proposal text on EasyChair’s IEA2021 platform. Proposed papers will be organized by Scientific Track and Topic. Descriptions of available Track Options and their associated Topic lists are found at iea2021.org. Authors will need to indicate their preferred presentation format. Further details and links to EasyChair are found at iea2021.org/Technical Program/Call for papers.

We look forward to your submissions!
