

Norwegian Renewable Energy Partners – INTPOW

What can WE do for YOU?

NOWITECH/Windpower Norway

14. may 2014

A wide-angle photograph of an offshore wind farm. Several three-bladed wind turbines are visible, spaced out across a calm sea. The sky is filled with large, dramatic clouds, and the sun is low on the horizon, creating a warm, golden glow. Two small service boats are visible in the water, one near the left and one near the right. The overall scene conveys a sense of sustainable energy and maritime technology.

*Promoting Norwegian
renewable energy capabilities
internationally*

Team INTPOW

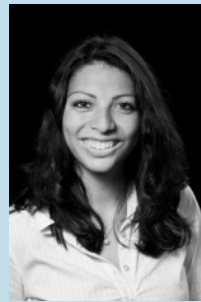

Line Amlund Hagen
Managing Director
line@intpow.com

Jon Dugstad
Director
jon@intpow.com
