Carbon Capture and Storage Program

INVITATION

CCSP & NORDICCS researcher workshop

Tuesday 22nd October at Hanasaari, Espoo, Finland <http://www.hanaholmen.fi>

The day after the CCSP & NORDICCS seminar a workshop will be arranged for the researchers and partners of CCSP and NORDICCS. The target for the workshop is to find new collaboration topics for CCSP & NORDICCS and strengthening the existing ones. The workshop is also an excellent opportunity for networking and knowledge sharing. Contrary to the seminar, which is open for anyone, this workshop is only meant for participants in the CCSP & NORDICCS programs.

A dinner will be arranged for the workshop participants on the evening before the workshop

Workshop program:

Monday 21st October

18:00 Dinner for NORDICCS & CCSP participants

Tuesday 22nd October

8:30 Coffee

9:00 Parallel workshops

- Transportation and infrastructure, storage of CO₂ in the Baltic Sea region (moderator: Karen Lyng Anthonsen, GEUS)
- CCS in industry & Bio-CCS (moderator: Antti Arasto, VTT)

11:30 Presentation of the outcome from the workshops and suggestions on how to move forward

12:00 Lunch

13:00 Nordic CCS Roadmap workshop (moderator: Marit Mazzetti, SINTEF)

15:00 Closing of the workshop

To register to the workshop, follow this link: http://www.lyyti.in/ccsp_nordiccs

Registration is open until 14th of October

Hotel rooms are available at Hanasaari <http://www.hanaholmen.fi/en/hotel-and-conference-center/home>. We have reserved a quota of hotel rooms to a special price of 95 € per night. If you book your room at Hanasaari, please mention the reservation code "CCSP" for the special price. You can reserve your room by e-mail: sales@hanasaari.fi

CCSP (Carbon Capture and Storage) program is an industry-lead Finnish R&D program (2011-2015), focused on developing CCS-related technologies and concepts. A further objective is to create a strong scientific basis for the development of CCS components, concepts and frameworks, and to establish strong international networks that enable active international CCS co-operation. <http://www.cleen.fi/en/ccsp>

NORDICCS is a virtual CCS networking platform aiming for increased CCS deployment in the five Nordic countries. Operating under the Top-level Research Initiative (TRI), NORDICCS is the Nordic CCS platform involving the major CCS stakeholders in the five Nordic countries. NORDICCS is financed by Nordic Innovation and the partners themselves, and has a planned operation of five years. <http://www.sintef.no/nordiccs>
