

TRONDHEIM CARBON CAPTURE & STORAGE CONFERENCE

T C C S 1 1

Sponsor Prospectus

The 11th Trondheim Conference on
Carbon Capture, Transport and Storage

June 22-23, 2021

ONLINE CONFERENCE

Taking Norway's Momentum Global

All eyes in the CCUS world are on Norway following the funding announcement of Longship, Norway's full-scale implementation. The world is eager to learn from Norway's experience so far. Interest in making CCUS happen has never been greater, and more global. With this momentum, the online TCCS-11 will be the biggest and best yet. A record number of attendees are expected from more countries than ever before to hear world-leading keynote speakers and presentations of the latest breaking R&D from universities, research institutes and industry. Don't miss this opportunity to associate your brand with this work and gain visibility to a truly global audience of CCUS professionals and researchers.

Nils Røkke, Executive Vice President, Sustainability, SINTEF

Johan Hustad, Director, NTNU Energy

Rune Aarlien, Senior Project Manager, SINTEF

THE ONLINE CCUS MEETING PLACE OF 2021

The Trondheim CCS Conference is a world-leading scientific conference on the whole value chain: CO₂ capture, transport, utilization and storage technologies. Usually more than 400 people gather from all over the world for this bi-annual event in Trondheim, Norway. But this year, things are different.

The global pandemic continues, but development of climate change mitigation technologies must continue at pace.

TCCS-11 will build on its fine legacy by moving online in order to attract the biggest ever attendance.

Expect a diverse program with plenty of opportunities for networking.

More than 150 oral presentations, 100 poster sessions and at least five parallel sessions are planned as we work together to overcome the barriers for CCUS implementation at-scale.

Parallel sessions

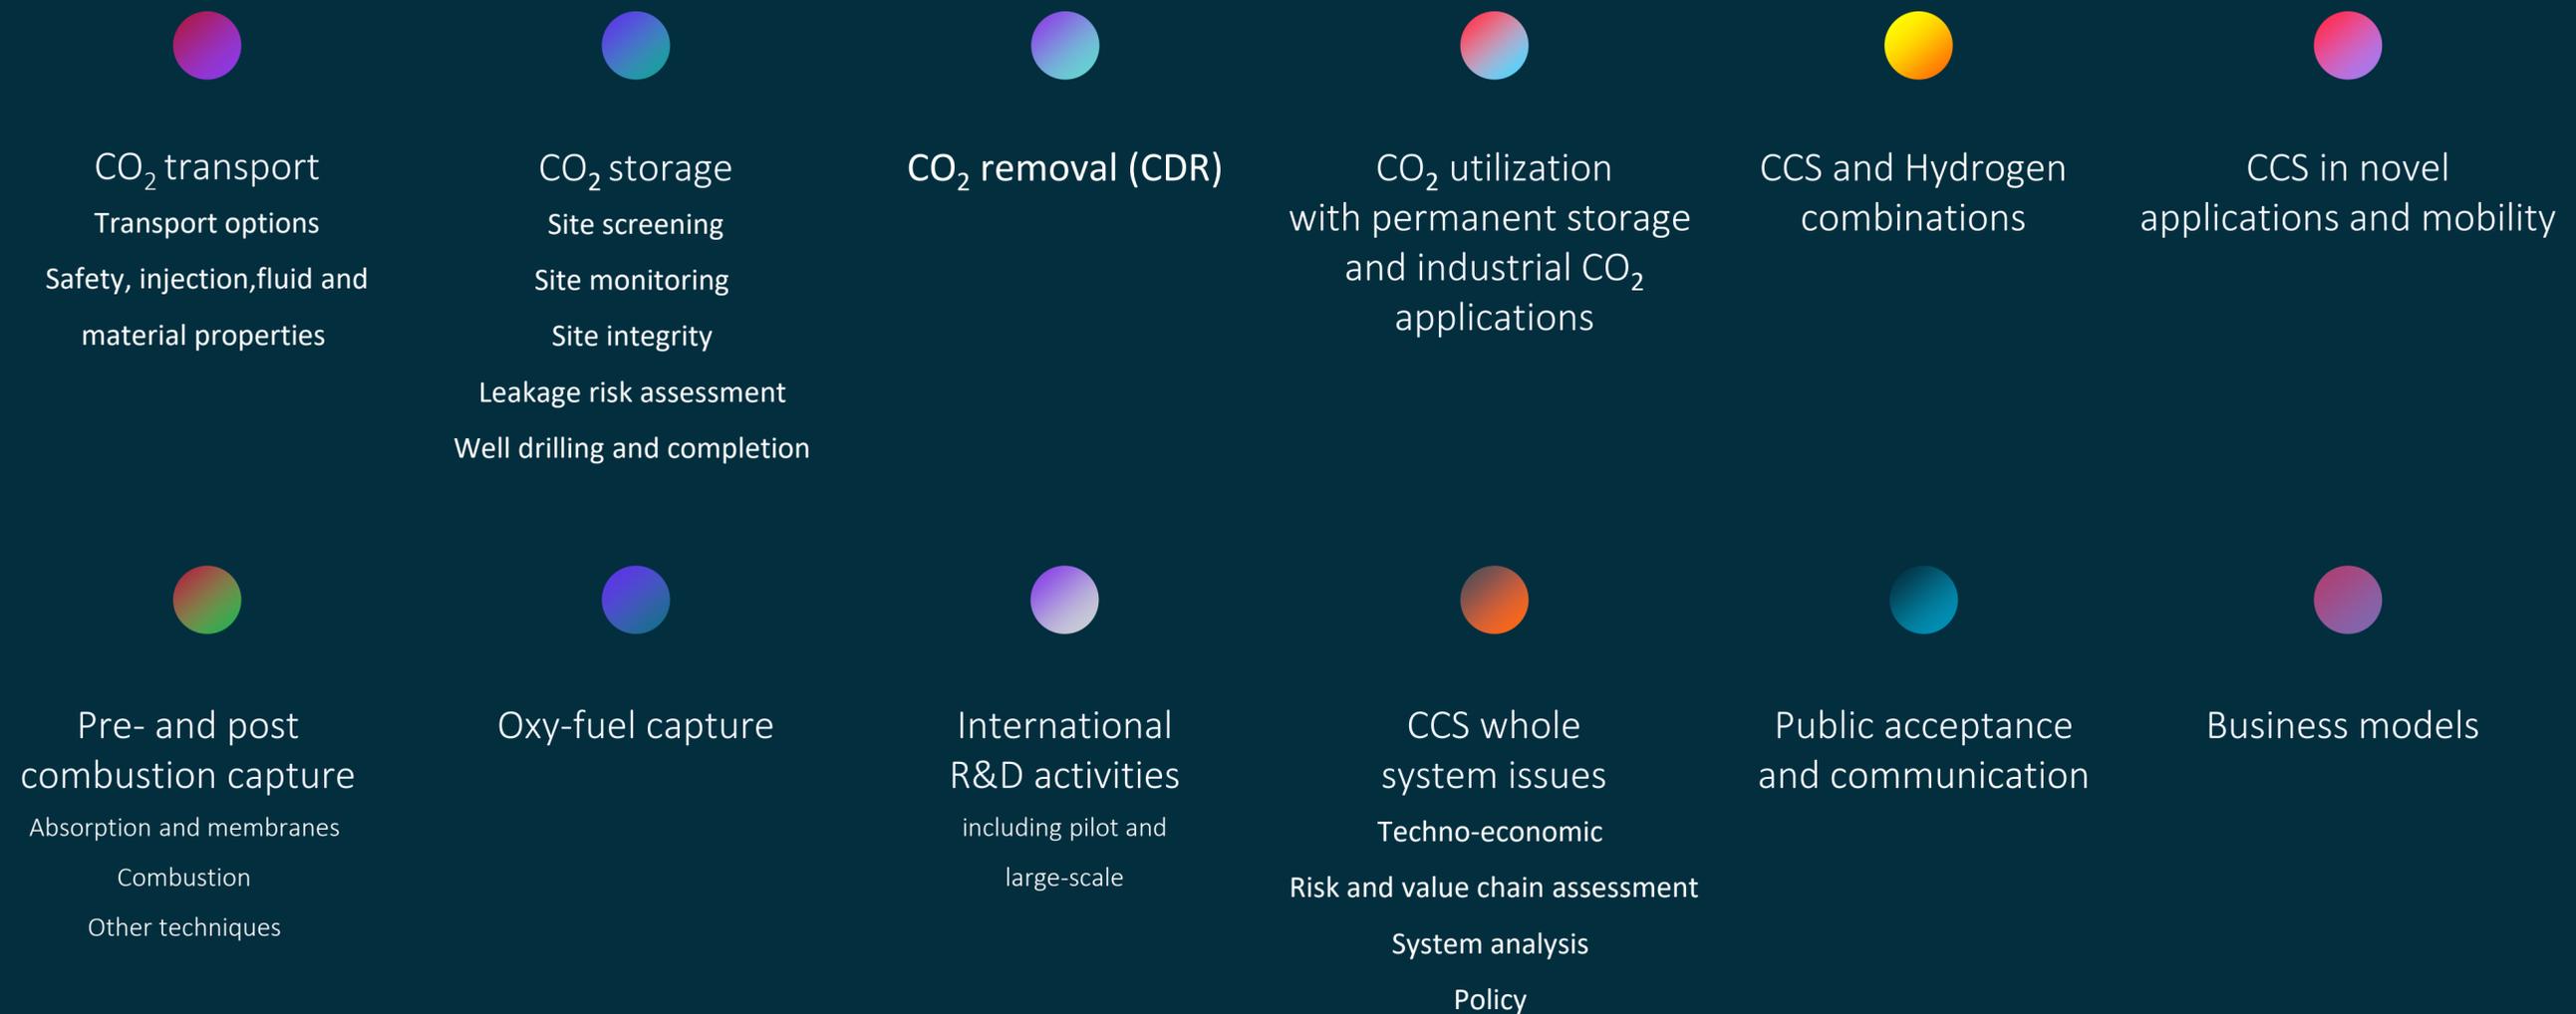

WORLD-LEADING CCS RESEARCH

TCCS-11 is organised by the Norwegian CCS Research Centre (NCCS), which aims to fast-track CCUS by working closely with industry on research that addresses major barriers to make CCUS happen in Norway, Europe, and the world. NCCS is an FME, a Norwegian centre for environment-friendly energy research, a program that seeks to develop expertise and promote innovation through focus on long-term research in selected areas of environment-friendly energy. In addition to support from the Research Council of Norway, 32 partners participate in NCCS, including universities, research centres and many private companies.

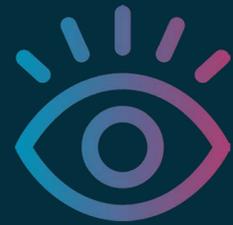

ALL ALONG THE CCUS VALUE CHAIN

The 11th Trondheim Conference will focus on research and development of CO₂ capture, transport, utilization and storage. The objective of the conference is to bring forward, present and discuss work undertaken within R&D institutions, universities and in industry. Potential topics include:

WHY SPONSOR TCCS-11?

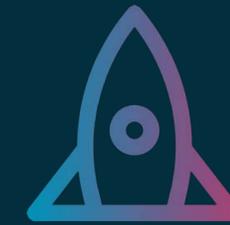

Exposure

As a TCCS-11 sponsor, your company will get prominent exposure for your brand and message to an engaged audience of industry, decision-makers and researchers spearheading CCUS development.

Non-profit

TCCS-11 is a non-profit event with funding mainly from registration fees and sponsors. We seek support from key companies and organizations interested in CCUS so that the registration fee is not a barrier to interested participants.

Future workforce

Today's students will develop the solutions of tomorrow. By supporting TCCS-11, you allow more students of CCUS and related fields to attend the conference, build networks and prepare themselves to become the problem-solvers of the future.

NEW DIGITAL OPPORTUNITIES – FOR A LOWER PRICE

To reflect the lack of a physical space, we have chosen to reduce the sponsorship rates for TCCS-11. However, the online format of TCCS-11 gives new opportunities for digital visibility and engagement with a bigger audience than ever before.

This means there has never been a better time to support TCCS!

New digital opportunities for sponsors include prominent placement of your company brand:

Keynotes

Before and after keynote speeches, watched live and after the event.

Online

Throughout the online platform user interface.

Website

Your brand will be featured in several locations on the TCCS website.

Email

In email newsletters sent in advance of the event.

NEW DIGITAL OPPORTUNITIES – FOR A LOWER PRICE

Present your brand digitally

A short text and video clips will be displayed on the TCCS-11 website and digital program.

During the event, sponsors will receive promotion throughout the online conference platform.

For platinum sponsors, there will be an opportunity to host digital booths to meet participants directly.

The screenshot displays the 'VIRTUAL ATTENDEE PORTAL' for the Trondheim Carbon Capture & Storage Conference (TCCS-11). The header features the SINTEF and NTNU logos. A countdown timer indicates the next session starts in 1m 1s. The main content area shows a 'Program' section with tabs for 'YESTERDAY', 'TODAY', and 'TOMORROW'. Under the 'TODAY' tab, the schedule is as follows:

- 9:00am: Parallel Session 6 (9:00am - 10:30am) with 'UPCOMING' status. It includes:
 - Session 6A - Operation & maintenance (with a star icon and 'PREVIEW' button)
 - Session 6B - Experimental testing and validation (with a star icon and 'PREVIEW' button)
- 10:00am: Break 1 Friday (10:30am - 11:00am)
- 11:00am: Parallel Session 7

On the right side, there is a 'Meeting Hub' with a 'VIEW' button, a 'Poster Gallery' section with a video thumbnail titled 'Challenges related to long HVAC export cables in offshore wind power plants', and three 'Sponsor logo here' placeholders. At the bottom right, there is a 'MORE INFORMATION' section with the text 'Click on an event to learn more about it'.

As a TCCS-11 sponsor, your brand will get prominent exposure to industry, regulators, researchers and research institutions from around the world.

NEW DIGITAL OPPORTUNITIES – FOR A LOWER PRICE

Virtual sponsor dinner

To replace the popular sponsor dinner, we will host a virtual sponsor dinner including keynote speakers from the conference. This allows you direct access to key players in CCUS in a more informal environment away from the conference itself.

Meet the students

Present your brand to the CCUS problem-solvers of tomorrow at a virtual "meet the students" session, involving master students and PhDs from around the world.

Panel discussion

As part of the main TCCS-11 agenda, platinum sponsors will be invited to a panel discussion with keynote speakers on a broad topic related to the future of CCUS.

As a TCCS-11 sponsor, your brand will get prominent exposure to industry, regulators, researchers and research institutions from around the world.
