

TRONDHEIM CARBON CAPTURE & STORAGE CONFERENCE

T C C S 1 2

## Sponsor Prospectus

The 12<sup>th</sup> Trondheim Conference on  
Carbon Capture, Transport and Storage

19–21 June 2023

# WELCOME BACK TO TRONDHEIM!

The Trondheim CCS Conference is a world-leading scientific conference on the whole value chain: CO<sub>2</sub> capture, transport, utilization and storage technologies.

Due to global events, TCCS went virtual for the first time in 2021. TCCS-11 attracted researchers, professionals and students from all over the world, many taking part for the first time. 28 countries were represented among the participants, a new record for TCCS.

We are now extremely happy to be able to welcome you back to Trondheim for TCCS-12! To celebrate, we are planning a jam-packed programme of more than 150 oral presentations, 100 posters, at least five parallel sessions and plenty of networking opportunities as we work together to overcome the barriers for CCUS implementation at-scale.

150+  
Oral presentations

100+  
Posters

5  
Parallel sessions

# “INCREASED INTERNATIONAL COLLABORATION IS CRUCIAL FOR A SUCCESSFUL ENERGY TRANSITION”

This year, the International Energy Agency (IEA), the International Renewable Energy Agency (IRENA), and representatives of the United Nations Framework Convention published the “Breakthrough Agenda” report. The report’s message is clear: increased international collaboration is crucial for a successful energy transition.

TCCS-12 will be a hub for building connections and sharing knowledge and expertise that will facilitate large-scale CCS deployment in numerous sectors around the world.

This is a perfect opportunity for your brand to be featured alongside a full programme of the latest R&D news from research and industry, as well as talks from world-leading keynote speakers. Don’t miss this chance to reach a truly global audience of CCUS professionals and researchers.

Nils Røkke, Executive Vice  
President, Sustainability,  
SINTEF

Johan Hustad, Director,  
NTNU Energy

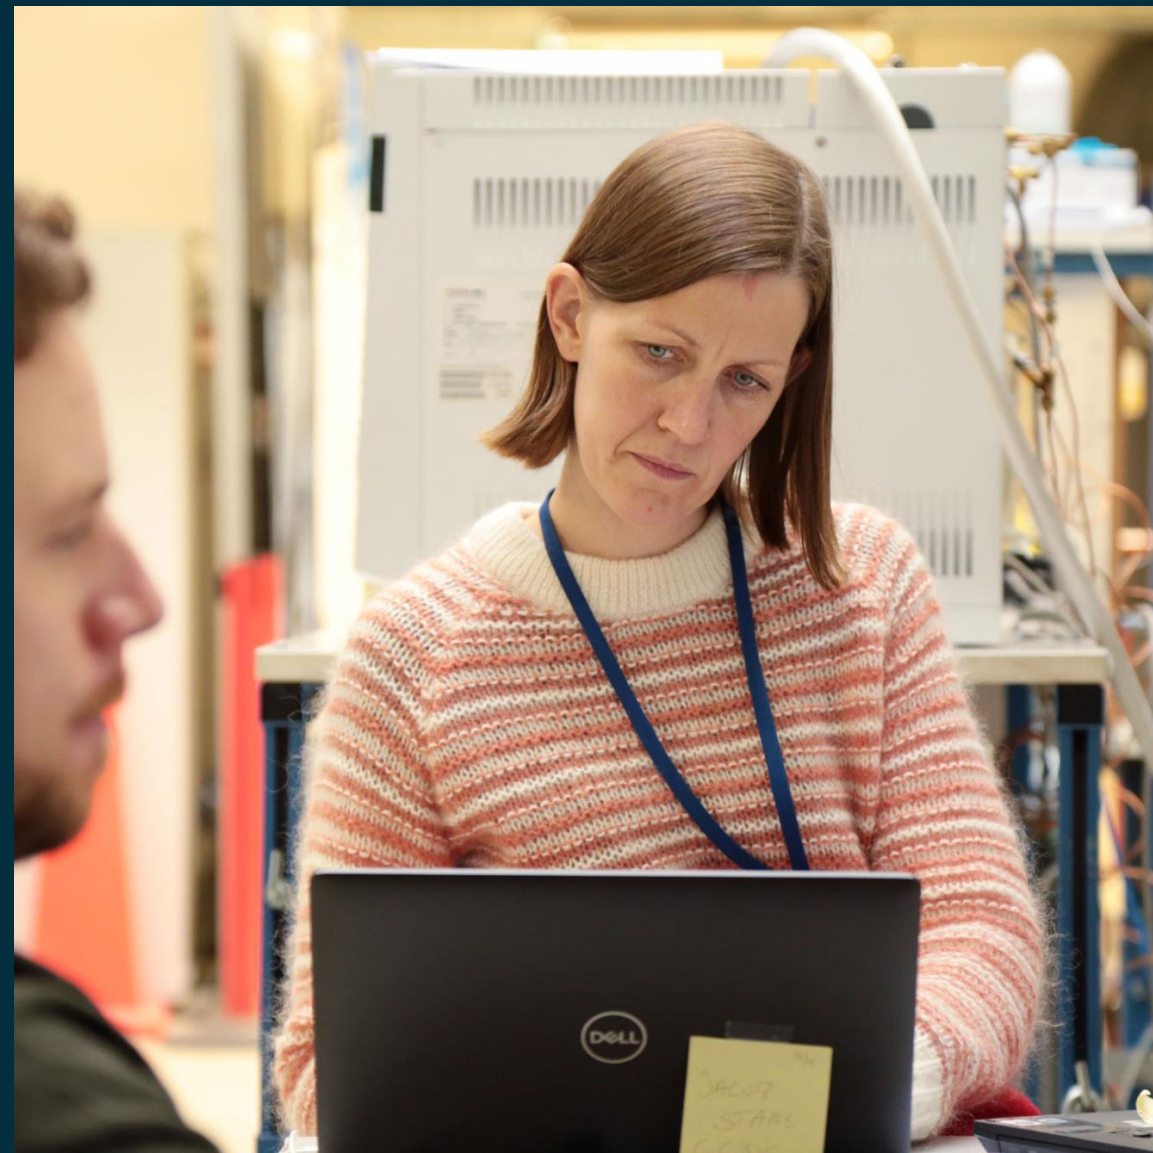

Rune Aarlien, Senior  
Project Manager, SINTEF

# WORLD-LEADING CCS RESEARCH

TCCS-12 is organised by the Norwegian CCS Research Centre (NCCS), which aims to fast-track CCUS by working closely with industry on research that addresses major barriers to making CCUS happen in Norway, Europe, and the world. NCCS is a Norwegian Centre for Environment-friendly Energy Research (FME), a programme that seeks to develop expertise and promote innovation by focusing on long-term research in selected areas of environment-friendly energy. In addition to support from the Research Council of Norway, 30 partners participate in NCCS, including universities, research centres, and private companies.

# ALL ALONG THE CCUS VALUE CHAIN

TCCS-12 will focus on the research and development of CO<sub>2</sub> capture, transport, utilisation and storage. The objective of the conference is to bring forward, present and discuss work undertaken within R&D institutions, universities and in industry. Potential topics include:

## CO<sub>2</sub> transport

Transport options: pipelines, ships  
Safety, injection, fluid and material properties

## CO<sub>2</sub> storage

Site screening and exploration  
Site integrity, containment, and leakage risk assessment  
Well drilling and completion  
Characterisation and monitoring  
Resource optimisation  
Constructing, operating and abandoning CCS wells

## CO<sub>2</sub> removal (CDR)

CO<sub>2</sub> utilisation with permanent storage and industrial CO<sub>2</sub> applications

CCS and hydrogen combinations

CCS in novel applications and mobility

Novel technologies

## Pre- and post combustion capture

Absorption/adsorption and membranes  
Combustion  
Other techniques

## Oxy-fuel capture

## International R&D activities

including pilot and large-scale

## CCS whole system issues

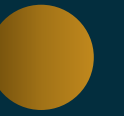

Techno-economic  
Risk and value chain assessment

## Public acceptance and communication

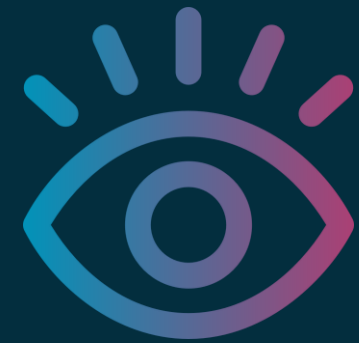

## Business models

## Policy, legal and regulatory issues

# WHY SPONSOR TCCS-12?

## Exposure

As a TCCS-12 sponsor, your company will get prominent exposure for your brand and message to an engaged audience of industry, decision-makers and researchers spearheading CCUS development.

## Non-profit

TCCS-12 is a non-profit event with funding mainly from registration fees and sponsors. We seek support from key companies and organizations interested in CCUS so that the registration fee is not a barrier to interested participants.

## Tomorrow's problem-solvers

Today's students will develop the solutions of tomorrow. By supporting TCCS-12, you allow more students of CCUS and related fields to attend the conference, build networks, experience recruitment opportunities and prepare themselves to become the problem-solvers of the future.

## Digital twin

This year's conference will be recorded and made available a week afterwards, allowing more people from your company to attend without added (with reduced) emissions.

# ONLINE VISIBILITY

There are plenty of opportunities to promote your company online before and during TCCS-12 through our digital communication channels! Digital visibility enables you to engage with a bigger audience than ever before and generate interest in your company before the event itself.  
**There has never been a better time to support TCCS!**

## **LinkedIn**

Your company will be announced as a TCCS-12 sponsor on NCCS' official LinkedIn page.

## **Website**

Your company logo and acknowledgement of sponsorship will be published on the official TCCS-12 website.

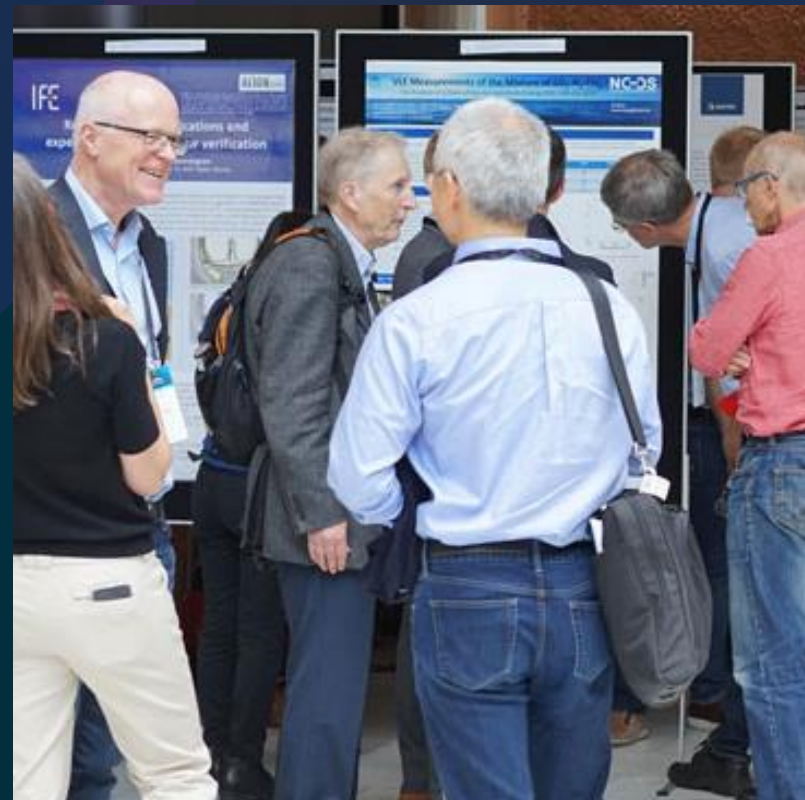

## **Newsletter**

Your company will be announced as a TCCS-12 sponsor in the official TCCS-12 newsletter.

# SPONSOR HIGHLIGHTS

## Visibility

Be visible throughout the entire conference with your own dedicated stand and your company logo displayed on banners, screens and roll-ups.

## Meet the students

Present your brand to the CCUS problem-solvers of tomorrow at a "meet the students" session, involving master students and PhDs from around the world.

## Side event

Organise your own side event during the conference to engage CCUS professionals and experts in the solutions, problems and topics that matter the most to you.

## Conference dinner

Become a sponsor of the main conference dinner and gain direct access to key players in CCUS in a more informal environment away from the conference itself.

As a TCCS-12 sponsor, your brand will get prominent exposure to industry, regulators, researchers and research institutions from around the world.
