

INDEE³ Newsletter #1

Welcome to INDEE³!

We're excited to launch the first newsletter for INDEE³ – the Indo-Norwegian collaboration on sustainable cooling and heating in India. This four-year project, funded by the Norwegian Ministry of Foreign Affairs, builds on the success of INDEE+ and aims to scale up climate-friendly technologies across India. We aim to keep these newsletters short and to the point, with links to more detailed information.

Kick-off Highlights: September 2025

BITS Pilani – Innovation Forum & Demonstration Tour

On 15–16 September, the INDEE³ team gathered at BITS Pilani for the Indo-Norwegian Innovation Forum. Partners and industry experts shared insights, case studies, and demonstrated technologies, including a flake-ice machine using propane – a promising solution for small fishing vessels.

New Delhi – Stakeholder Engagement & Policy Seminar

From 17–19 September, the project continued in New Delhi with industry stakeholders, Norwegian Environmental Agency, and Norwegian Embassy representatives. Discussions focused on project structure, work packages, and future collaboration. The Policy Seminar highlighted the importance of sustainable cooling and heating for India's development.

Refcold 2025 Participation

INDEE³ was also present at Refcold 2025, showcasing project highlights and outlining strategic next steps.

Stay Connected

We'll be updating the [INDEE³ website](#) regularly with news, events, and resources. Make sure to:

- **Follow us on LinkedIn** for real-time updates
- **Register for newsletters and meeting invitations (on the website)**
- **Learn more about our focus areas:**
 - o Demonstrating natural refrigerant-based technologies
 - o Building capacity through education and training
 - o Supporting policy development for sustainable cooling and heating in India
