INDEE^3 Newsletter #4

Dear INDEE3 Newsletter Subscriber,

November and December are busy months for INDEE3, and we would love to see you at one of our events. From publication launches and seminars at Refcold 2026 in Pune to an online webinar and a training course in Bangalore, the programme covers India's HFC phasedown, the move to natural refrigerants and the skills needed for sustainable cooling and heating.

Have a look at the line-up below. More details will be added via the links as each event gets closer, so feel free to forward this newsletter to colleagues who may want to join.

Event	What to expect	When & where
WEBINAR **Accelerating the Defluorination in HVAC and Refrigeration Sector through Effective and Transparent Communication**	Professor Armin Hafner introduces INDEE3 and shows, through examples from supermarkets, cold chains, heat pumps, industry and more, that natural refrigerants are already proven. The challenge now is awareness, skills and market adoption, and this webinar explores how good communication can speed up the move away from fluorinated refrigerants. **Read more →**	**13 November 2026** Online
HANDBOOK LAUNCH **PROPANE NATURALLY SAFE! Edition for India**	The ISHRAE best-practice guidebook for heat pumps and refrigeration systems in commercial and residential buildings, launched at the REFCOLD Awards night.	**19 November 2026** REFCOLD Pune, India
POLICY BRIEF LAUNCH **India's Approach Towards HFC Phasedown**	A new CEEW policy brief on how India is approaching the HFC phasedown, launched at the REFCOLD Awards night.	**19 November 2026** REFCOLD Pune, India
INDEE3 SESSION **Transition towards clean systems applying natural refrigerants**	Three hours of industry keynotes, INDEE3 technical talks and panel discussions on cost, safety, efficiency and accessibility. See why natural refrigerant solutions for India's cold chain and food processing are ready to scale today. **Read more →**	**20 November 2026** REFCOLD Pune, India
SEMINAR **Building Skills for Sustainable Cooling and Heating: India–Europe Collaboration**	Researchers, industry, training institutions, policymakers and investors meet to share experience from training and certification programmes and shape a joint India–Europe roadmap for skills in the safe use of low-GWP natural refrigerants. **Read more →**	**25 November 2026** The Royal Norwegian Embassy in Delhi, India
TRAINING COURSE **Development of CO_2 and Hydrocarbon based Sustainable Cooling and Heating Systems**	Three days focused on CO_2 and hydrocarbon based systems for sustainable cooling and heating, hosted by the Interdisciplinary Centre for Energy Research. **Read more →**	**7–9 December 2026** Interdisciplinary Centre for Energy Research, IISc, Bangalore, India

If you know others who may be interested in following INDEE3 activities, they can sign up for project news and updates via our website.
