

CheckIT

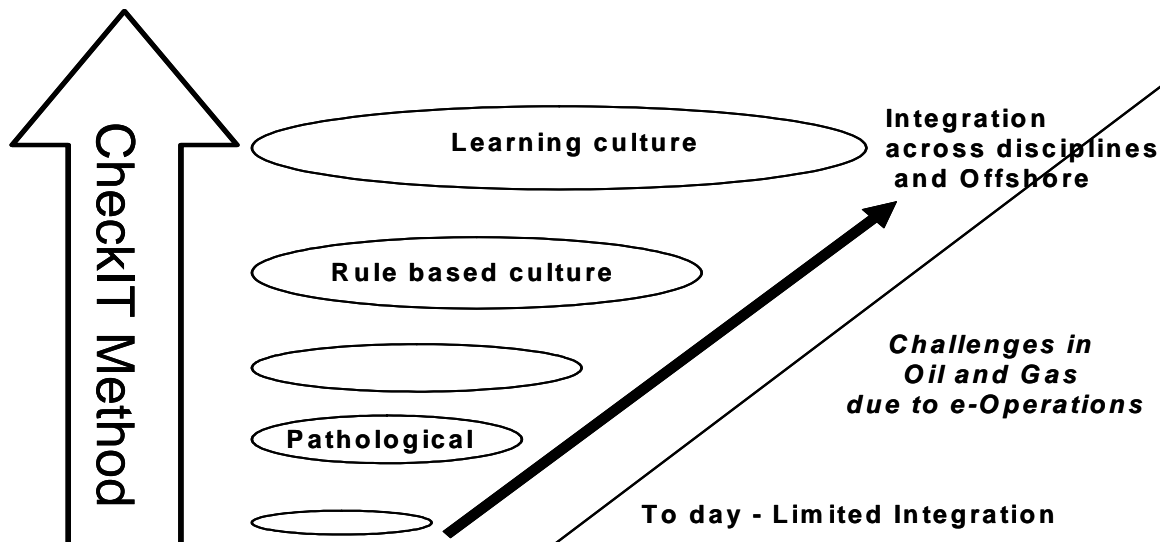

Improve safety and security in e-Operations by improving culture. Scope is ICT systems, Distributed Control Systems, SCADA, SIS and Technical Networks

Scope: Safety and security in e-Operations – production systems

Improvement of safety culture, defined as: *'The safety culture of an organisation is the product of individual and group values, attitudes, perceptions, competencies and patterns of behaviour that determine commitment to, and the style and proficiency of, an organisation's health and safety management'*.

[From Advisory Committee for Safety on Nuclear Installations-93]
