

Norsk Nanomedisin Nettverk

Heidi Johnsen

Seminar Nanomedisin i Norge 12.12.2007

Creating a nanomedicine network in Norway...

- European Technology Platform established autumn 2005
"Nanomedicine, the application of nanotechnology to health"

 - SINTEF accepted as a member May 2006

 - November 2006, Research Council + SINTEF:
Seminar on Nanomedicine in Norway with topics:
 - ETP Nanomedicin
 - 7th FP
 - Interested groups in Norway
 - Networking
- ⇒ Decision of the seminar to establish a website for Norwegian Nanomedicine Network – responsibility of SINTEF

Norwegian Nanomedicine Network

- Aim:

To gather the main Norwegian players in research, industry and public administration within the nanomedicine field.

- An informal structure, no steering committee, main feature is a web-site

Norwegian Nanomedicine Network website

■ Intentions of the website:

- Provide a joint forum for Norwegian competency within nanomedicine
- Present the Norwegian nanomedicine research community and industry to international partners
- Increase the collaboration in national and international initiatives like European projects
- Give relevant information and links to nanomedicine networks and technology platforms in Europe
- Inform about relevant events

Norwegian Nanomedicine Network website

- 25 participants today, representing:
 - Universities (Oslo, Trondheim, Tromsø)
 - Research Institutes
 - Hospitals
 - Private companies

- Fundings:
 - Research Council (establishment of website)
 - SINTEF (maintenance 2007)
 - Private companies (sponsors)
 - Contribution to content from the participants

www.sintef.no/nanomedicine

- Any comments?
- Improvements?
- Continued life of the website...
